Dear Mr. Watson

I have found the book I mentioned in my last letter to you, viz. the unbound copy of the Nat. Mosses of Gray, Man. - it ought to go with the collection - also Mr. James' articles in the Trans. of the Am. Philosophical Soc. & three boxes of what I suppose are duplicate Mosses of his collection -

I have not yet found time to appoint a time when I can have a conversation with you, but perhaps when Mrs. Gray returns I may go up to the Museum to talk affairs over with you -

Do there not a box of mine in  
your care which has not been opened

Believe me truly yours, in haste

Isabella James -
